

The image shows a standard European energy label for a refrigerator. At the top left is the EU flag. To its right, the word "ENERG" is written in large letters, with "енергия · ενεργεια" below it. Further right are four small circles containing the letters Y, IJA, IE, and IA. Below this header, the brand name "MORA" is on the left and the model number "OK997GX" is on the right. The main part of the label features a vertical scale of energy efficiency classes from A+++ (green) at the top to D (red) at the bottom. A black arrow points to the class "B". Below the scale, a rounded rectangle contains the value "67.9 kWh/annum". At the bottom, there are four icons in rounded rectangles: a fan (energy efficiency class A-B-C-D-E-F-G), a lightbulb (energy efficiency class A-B-C-D-E-F-G), water droplets (energy efficiency class A-B-C-D-E-F-G), and a speaker (noise level "70 db"). The bottom left corner has the text "65/2014" and the bottom right corner has the number "737903" written vertically.
